

Ringwood Secondary College

Year 7 iPad Program 2017

Compulsory Set Up and Information Workshop for Students & Parents

An install session for the Year 7 iPad 2017 Program will be held in the Ringwood Training Facility, 3 Hill St, Ringwood 3134. It is anticipated that the workshop will run for about 120 minutes. The session is available for a parent/guardian and student and is designed for both the school purchased and BYO users. For those families who have purchased through the school program the iPad will be distributed at the session you attend. Please register online <https://www.trybooking.com/NTGM> no later than **Tuesday 6th December 2016, (Orientation Day)**. It will be appreciated if only one parent attends the session with their child.

Please register the session (Qty of 1 only) under each child's first and last name (not the parent/guardian). If you have more than one child entering Year 7 please register separately, if after registering for one child the session becomes full, contact college reception for a manual placement. Once sessions are full there will be no exceptions apart from the previous situation as we need to ensure a good experience and support for everyone in the sessions.

If you do not have access to the internet to make this booking, please contact college reception before the due date on 03 9870 2002.

There are a limited number of places available online in each session to ensure a good experience.
